

Thomson à Poincaré

19th Jany '89
THE UNIVERSITY, GLASGOW

Dear Mr. Poincaré,

I was glad a fortnight ago to receive your New Year card, and had kept it as a reminder to send my own in return, when yesterday I received your beautiful volume "*Théorie Mathématique de la Lumière*."¹ It contains a great deal of most interesting reading for me, and I thank you very much for your kindness in sending it to me. With all good wishes to you for the New Year.

I remain, yours very truly,
William Thomson
